Autokreacja Foundation aims at fostering the active participation in a civil society through various initiatives in the field of social economy. We contribute to the civilizational, cultural and economic development of Poland. We want to put the spotlight on problems of diverse social groups that are often marginalized, that is why we focus on cooperation with long-term unemployed, youth from underprivileged regions, unemployed women, eldery people, immigrants and refugees. Many of our projects were designed to favour multiculturalism and intercultural exchange by bringing together different lifestyles, points of view and philosophies.

Our mission is working towards building more inclusive societies where every individual feels empowered to be a change maker

The project

Out Of Classroom is an Erasmus+ training course for youth workers (KA1) focusing on rediscovering the principles and methods of non-formal education that can be used while working with young people at risk of exclusion. Non-formal education is an extremely popular concept nowadays - many NGOs advertise their projects as based on participants' active involvement. Despite this, many of the youth workers organizing this kind of activities do not have a proper theoretical basis and understanding of what non-formal education should really entail. Through this training course, we would like to go back to basics and have an in-depth reflection on the concept, discovering what it really means and learning how to design, monitor, and evaluate effective out-of-school projects for youngsters at risk. As a result, we want to our participants to start seeing non-formal education as more than just a buzz word and adopt it as a guiding philosophy that is a basis of their work.

As this project is dedicated to the topic of non-formal education, we will put a lot of emphasis on the crucial concept of self-assessment and monitoring one's individual learning journey. The participants will also have a chance to reflect upon their own existing competences as facilitators and adding new ones to their desired set of competences necessary in their work. Providing participants with a deep knowledge on competences in the beginning of this youth workers mobility will increase their chances to undergo a more effective, efficient, and aware learning process and act as intentional learners throughout the whole training.

Project objectives

- Exploring the concept of non-formal education and deconstructing the misconceptions
 around it
- Reflecting upon the role of facilitators in the projects addressed to young people at risk and sensitizing them to the specific educational needs of those target groups
- Sharing tools and methodologies and learning how to analyze them critically and adjust them to the specific local context
- Creating a tool-kit on non-formal education for activists working with youth at risk
- Building a sustainable network of partner organizations devoted to working internationally

COVID ISSUES

Poland has fully opened its borders. From 28.03.2022 there is no obligation to fill in the Passenger Locator Form (PLF) before arriving in Poland.

June in Poland is typically quite warm (20-25 degrees) but sometimes it can get colder, it is also possible that it is going to be windy and/or windy since we are going to stay at the seaside. Make sure to bring warmer clothes, rainproof jacket and comfortable shoes. We also recommend you to check the weather forecast couple of days before arriving in Poland.

Phones and internet

The international access code for Poland is +48. The outgoing code is 00 followed by the relevant country code (e.g. 0048 Poland).

We will have internat in the venue but wi-fi is also available pretty much everywhere.

Food and water

Food expenses (breakfast, lunch, dinner and coffee breaks) are covered by the project and managed by Autokreacja. Vegetarian food is available, but organizers should be informed about no later than one week before arrivals.

If you want to try some typical Polish dishes you may find that Polish food is hearty and filling, with thick soups and sauces, abundant in potatoes and dumplings, rich in meat but not so much in vegetables. Characteristic ingredients are dill, marjoram, caraway seeds and wild mushrooms. There are four daily meals in Poland: an early breakfast, a light snack for second breakfast, a substantial dinner taken after work, and a small supper before bed.

Water: tap water is suitable for drinking.

Electricity

Electricity in Poland is 220 VOLTS at 50 Hertz. European plugs should be compatible with Polish ones.

Money

The official currency is Zloty (PLN), divided into 100 groszy. Most major credit cards are appear around the city centre, they are marked BANKOMAT (cash dispenser in Polish). Money can be exchanged at banks, hotels and at the airport but exchange offices, called KANTOR, usually offer better rates. Some of the exchange offices are open 24 hours a day.

The exchange rate as of April 28th is 1 EUR - 4.71 PLN

Coins

1, 2 and 5 zloty and denominations of 1, 2, 5, 10, 20 and 50 groszy.

Notes

The PLN appears in denominations of 10, 20, 50, 100 and 200 zloty.

Communication
