

# RE-SOLVE

01.08. - 07.08.2022

Cyprus

International Activity

## DESCRIPTION OF THE PROJECT

Re-solve has a goal of creating a common space to reflect on visible and invisible borders between communities, which divide societies mentally and/or geographically in Europe. These borders come with several issues one being, the indifference to encountering the other or becoming radicalized, which can be reduced by intercommunal work. Participants will work together to gain knowledge on the effects of leading a non-sustainable lifestyle. They will share how they deal with sustainability in their home countries, through the added benefit of being part of an intercultural environment. Intercultural dialogue and communication will be approached through an environmental theme and the thematic area of multi communal societies and division. Participants will take part in a series of workshops and educational sessions over a period of 6 days. The methodology will be based on non-formal education and experiential learning.

## OBJECTIVES OF THE PROJECT

- To spot the differences and the similarities between cultures of the participant countries and raise awareness to solve the global crisis of climate changes.
- Empower young people to become active change makers in a more environmentally friendly and sustainable Europe.
- Share methods and tools which support more skilful inter-personal work to carry out activism, and enable ways of organising which exemplify the values participants want to realise in the world.

## TRAVEL INFORMATION

In Cyprus there are 2 airports:

Larnaca and Paphos International Airport.

## ACCOMODATION

Participants will be accommodated in Cyprus Environmental Studies Center by Terra Cypria in Kritou Terra, website: <https://terracypria.org/cesc/>  
Three meals and two coffee breaks per day will be provided. The participants will inform the organizers about their dietary needs (vegan, halal food, allergies) in the application form, so the staff can arrange the menu according to their needs.

# Cyprus Environmental Studies Center

The Cyprus Environmental Studies Centre (CESC) was founded in 1995 to supply practical environmental education. It is the Educational and Research branch of Terra Cypria, a non-governmental organisation (NGO), officially established in 1992 as a charitable, non-profit organisation.

The great diversity of plant and animal life in the region where CESC is situated makes it an ideal place in which to study the natural environment.

The local landscape includes dramatic gorges, pine forest, oak woodland, permanent streams and wetlands, including the sea.

The Cyprus Environmental Studies Centre is located in the picturesque village of Kritou Tera just on the borders of Akamas and Akamas National Forest Park.

## INSURANCE

All participants should have a valid European health Card.

## DEADLINES

**FILL IN THE FORM BEFORE 02.07.2022**
