

Information kit for the volunteering project in Märchenkoffer e.V (Hannover, Germany)

About the organization

Märchenkoffer e.V is a non-profit organization whose main goal is to support multilingualism and mother tongues of the children with migrational background.

We give children and teenagers living in Hanover the opportunity to practice their native language in an informal setting.

The project includes regular classes, as well as workshops, holiday celebrations and camps. Our regular language classes are more like hobby groups.

Children can choose a field that is interesting to them: arts, science, theater, history, mathematics, chess, literature, or all at once. Much attention in our work is paid to the development of concentration, memory, and the ability to work for results. We teach children to ask questions, learn new things - independently or in a group; be interested in what's around you.

We carry out many projects every year. Among them are after care, workshops on various topics on weekends, including scientific, creative and culinary topics. We also organize hikes for children, trips to beautiful and significant places and camps during the holidays. We also have a project named „Multilingualism house“, where activities are already taking place in 4 languages. This is a kind of vision and goal for us, which we strive for in the future.

Our project includes not only working with children. We also invest a lot of time into developing the multicultural community in the town, maintaining social networks, promoting the idea of solidarity, cooperating with politicians and other organizations in the city of Hannover and surrounding area.

Therefore, in our organization, you can prove yourself in various fields.

You can gain experience in what you are good at and also learn many new things.

We also recommend you to visit our Website sprachhelden.com and Instagram [@skazokchemodan](https://www.instagram.com/skazokchemodan) to learn more about our activities.
