SHORT DESCRIPTION OF THE PROJECT

Peacebuilders of Tomorrow: Youth Empowerment for Sustainable Peace

We want to carry out this project to address the pressing issues and needs related to conflicts, peacebuilding, and democratic values. The ongoing wars and conflicts in Europe and worldwide have devastating consequences for individuals and hinder economic and social progress. Victims often struggle to access the necessary support and face challenges in surviving the horrors they have experienced. It is crucial to demonstrate solidarity and establish robust democratic foundations throughout Europe to foster peace and coexistence.

There is a need to advocate for coexistence, human rights, and social justice in dynamic societies across Europe. In the face of conflicts, it is essential to promote values that emphasize tolerance, respect for diversity, and the protection of human rights. By addressing this need, we aim to create a culture of inclusivity and acceptance among young people, fostering peaceful coexistence and social harmony.

The primary objective of our project is twofold. Firstly, we aim to enhance the capabilities of youth to actively contribute to building democratic and peaceful societies. By equipping them with the necessary knowledge, skills, and values, we empower youth workers to play a vital role in peacebuilding efforts. Secondly, we seek to cultivate the creativity of young individuals to become agents of positive change. We want to inspire young people to take an active role in promoting peace, coexistence, human rights, and social justice.
